## SUMMARY

---

Finance student at UADE with hands-on experience in blockchain market research, algorithmic trading, and open-source product development. Currently finishing *Consumer Price Illusion* — a book-length Austrian economics critique of official CPI methodology. Three active projects in production. Looking for a junior analyst or research role where independent thinking is valued more than tenure.

## EXPERIENCE

---

Jan 2026 – Present

### Co-Founder, Product & Growth

Nostr WoT

Building the trust infrastructure for Nostr, an open-source ecosystem comprising a Rust-based WoT Oracle, browser extension, and JavaScript SDK. Shipping across Chrome, Brave, Edge, and Firefox with real adoption. Driving product direction, growth strategy, and ecosystem partnerships.

Jan 2026 – Present

### Head of Growth

MappingBitcoin

Leading go-to-market strategy for MappingBitcoin, the discovery layer for the Bitcoin circular economy. Driving merchant acquisition, community engagement, and ecosystem partnerships. Platform maps Bitcoin-accepting merchants, organizations, and individuals across 6 continents via OpenStreetMap and Nostr.

2025 – 2026

### Author

Consumer Price Illusion

A book-length Austrian economics critique of the Consumer Price Index. Covers index construction, quality adjustments and substitution bias, monetary inflation, Cantillon effects, and 80 years of monetary history from the gold standard through the fiat era.

Jan 2026 – Present

### Content Creation Manager

Liberture

Building and managing content strategy for Liberture's wellness and performance platform. Designing AI-powered biohacking assistants, curating research across health and human performance, and developing the platform's knowledge base.

2024

### Blockchain Market Researcher

DandelionLabs

Conducted on-chain and market research on blockchain protocols and emerging assets. Analyzed token economics, market dynamics, and ecosystem development. Produced research reports used for investment and strategic decisions.

2024

### Bitcoin & Economics Writer

WeAreBitcoin.org

Wrote articles on Bitcoin, Austrian economics, and monetary policy for a Spanish-language Bitcoin education platform. Topics included sound money theory, inflation mechanics, and the case for a fixed-

supply monetary system.
